INSTRUCTOR: Pamela Fitzgerald, R.N., M.A., C.T.S., C.H.I

I became a certified hypnotherapist in 1993 and have been using hypnosis in my psychotherapy practice since. I have found it an amazing tool for many issues. I became a Certified Instructor with the National Guild in 2000 so I could teach other therapists this skill. I have also taken a 56 hour course in past life regression therapy for spiritual healing, direction and growth for the client. I have completed a certified course for Life between Lives. The work Dr. Michael Newton has developed for over 30 years.
